SMART Board™ Tools

The SMART Board Tools provide access to functions that help you operate the SMART Board interactive whiteboard more effectively.
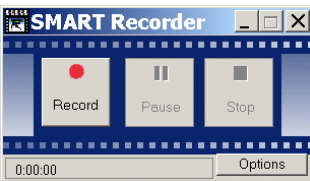

## Accessing the SMART Board Tools

Double-click the SMART Board icon in the Microsoft® Windows® System Tray. The SMART Board tools will appear.

If the SMART Board icon does not appear in your System Tray, select Start, **Programs**, **SMART Board Software**, and select **SMART Board Tools**.

Using the SMART Board Tools

The touch-sensitivity of your whiteboard allows you to operate each of these tools with your finger.

Selecting…	Opens…	Use this tool to…
Notebook		Write and draw on the SMART Board interactive whiteboard and capture and edit notes and diagrams
Recorder		Record everything that happens on the interactive whiteboard, regardless of which application you're using. SMART Recorder also lets you record audio through a microphone and automatically combine audio and data into one file for playback on any computer.
Video Player		Make annotations over top of any video and capture the image and annotations to Notebook software
Keyboard		Enter text into any application at the interactive whiteboard without having to run back and forth to a regular keyboard
Floating Tools		Access virtual pen-tray tools, highlighter, screen pointer, spotlight and other key functions
Control Panel		Configure the settings for your interactive whiteboard, pen-tray tools, Floating Tools and SMART Aware. For details about the Control Panel, refer to your *SMART Board Interactive Whiteboard User's Guide*.
Orient		Orient the SMART Board interactive whiteboard so that the cursor appears directly beneath your fingertip when you touch the surface. This ensures accurate tracking and execution of mouse clicks
